

INTERNATIONAL PROGRESSION CAMP

SAAS FE, SWITZERLAND

2, 10 DAY SESSIONS / OCTOBER 2018 (EXACT DATES TBA)

Saas Fe has always had a good snowboarding and freeskiing scene in the Fall, but by recently partnering with master park-builder Charles Beckinsale (Whistler Parks, Perisher Parks) the Swiss resort has entered the big leagues with the creation of The Stomping Grounds.

Featuring a pristine 22' superpipe, a creative array of rails and box features, and perfect jump lines of all sizes The Stomping Grounds opened last year to rave reviews, instantly achieving elite freestyle destination status amongst pros around the globe.

The storybook town of Saas Fe is a designated motorless town, meaning there are no automobiles allowed. Campers will be dropped off outside of town by the charter bus, and then be taken with their luggage to the hotel by electric golf-cart taxi. Walking around town on the ancient cobblestone streets, with not a car in sight, is a surreal experience that feels like you've gone back in time.

Hotel rooms will be double-occupancy and will include a full meal plan. Afternoon activities abound with skatepark, alpine slide, zip-lines, via-ferrata – the list goes on.

This is a training opportunity and cultural experience not to be missed!

Trip will include charter airfare, airport-to-resort transportation, double-occupancy luxury accommodation, full meal plan, lift tickets, afternoon activities, and 24-hour chaperoning and supervision.

Full details including dates, cost, and group travel available soon.
